Measure "C" Oversight Committee Community Report 2006

Oakdale Joint Unified School District 2005-2006

The Oakdale Joint Unified School District Bond Oversight Committee represents the community and has the responsibility of ensuring that the allocations of funds provided by the passage of Measure C are expended as outlined in the measure. The 20 million dollar bond was issued to provide funds to

build a new elementary school, classroom relocation at the Junior High School to be replaced by a new library and classrooms, new library and classrooms for the high school, expansion of the high school

campus, additional athletic fields, and modernization of the existing high school buildings. Bond funds will also provide for modernization of Magnolia, Fair Oaks, and Cloverland Elementary Schools. When completed this will be a total of over 52 million dollars of improvement to the Oakdale Schools. Measure C, State Bonds, and Developer Fees provided funds for these projects. Listed below are the Measure C Bonds funds and how they are committed.

Measure C listed more projects than funds could provide for. Funding for those additional projects will be provided by future bond measures such as the proposed Measure "R" and future developer fees.

An independent auditor has reviewed all Measure C bond expenditures.

Norm Antinetti, Chairperson

Project	Project Budget	Measure C Funds	Status
Sierra View Elementary	\$13,737,850	\$1,894,039	Completed
Jr. High School Classroom Relocation	\$118,320	\$50,000	Completed
